Addenda and Information

Welcome to Mönchengladbach! We hope that the hours we shall be spending together will be in harmony and friendship. As the organizers, we were surprised about the great acceptance, and were all very pleased about this, of course. In order to be able to make the events offered possible for our guests as far as possible, many of the Dames and Knights from German commanderies who have booked have made their seats available. Should there nevertheless be a bottleneck here or there, we will do our best to settle this adequately. With this, we therefore ask you now: Please make your reservations as early as possible – future organizers will thank you for this! Please also note that both **the formal dinner and eating in Cologne exclude all drinks**, and that the **busses leave punctually!**

Always carry your hotel card with you and make sure nothing gets stolen!

At the national Fall Meeting 2003 in Grevenbroich, in the Cistercian cloister of Langwaden, the commanders of the amalgamated commanderies in the national OSMTH Germany resolved to divide all the work into administrative responsibilities and to allocate the work to the respective commandery or single person. We thank you for your work.
